

## CEO UPDATE - Coronavirus

### SA RESTRICTIONS ANNOUNCEMENT

Dear Richard,

Today the State Government announced a period of significantly increased restrictions for the next 6 days commencing from midnight tonight. There is also a further period of 8 days proposed to follow at a reduced level of restriction.

We know that service stations can remain open, however, the exact detail of all of the restrictions are expected to be provided by the State Government later this afternoon.

We are currently seeking clarity on automotive repair as an essential service from the Premier and have already received a response from his office that they are looking into it.

We will be sending out a comprehensive update as soon as possible and expect this will be by this afternoon or evening.

We also ask that members have patience during this time as we bring you the most accurate information.
